Planhigion fel Darparwyr Cemegau Mân

29 - 30 Awst 2012

Ysgol Cemeg, Prifysgol Bangor

Prif anerchiad gan: Yr Athro Monique Simmons FRES, Dirprwy Geidwad Labordy Jodrell a Phennaeth Defnyddio Planhigion yn Gynaliadwy, Gerddi Brenhinol Botaneg, Kew.

Bydd y gynhadledd hon yn canolbwyntio ar ddatblygiadau diweddar ym maes cemeg planhigion. Rhoddir sylw arbennig i'r ffordd y defnyddir echdynion planhigion neu gyfansoddion wedi'u puro fel cyfryngau i amddiffyn planhigion, cynhwysion mewn cosmetigau, bwydydd llesol, meddyginiaethau a pholymerau a phecynnau bioseiliedig. Bydd y siaradwyr yn y gynhadledd hon yn arbenigwyr o lywodraeth, diwydiant ac academia. Gwahoddir ymchwilwyr sy'n gweithio ym maes cemeg planhigion i ddod i'r achlysur hynod berthnasol hwn.

Gwahoddir ceisiadau i roi cyflwyniadau llafar a phoster; cysylltwch, os gwelwch yn dda, â Dr. Vera Thoss: plants@bangor.ac.uk

Pecynnau cynrychiolwyr o: £45

Dyddiad cau i gofrestru: 1 Gorffennaf 2012

Plants as Providers of Fine Chemicals

29 - 30 August 2012

School of Chemistry, Bangor University

Keynote address by: Professor Monique Simmons FRES,
Deputy Keeper of the Jodrell Laboratory and Head of the Sustainable
Uses of Plants, Royal Botanical Gardens, Kew.

This conference will highlight recent advances in plant chemistry, in particular the application of plant extracts or purified compounds as plant protection agents, cosmetic ingredients, nutraceuticals, medicines or biobased polymers and packaging. Speakers at this event will be experts from government, industry and academia. Researchers working in the field of plant chemistry are invited to attend this very relevant event.

Submissions of oral and poster presentations are invited,
please contact Dr. Vera Thoss: plants@bangor.ac.uk

Delegate packages from: £45

Registration deadline: 1st July 2012
